The Louisiana Lottery Throws Up the Sponge

IT WILL FIGHT NO LONGER

Satisfied That Business Cannot be Done it Will Retire to Soon as Its Charter Espires.

New CHLEANS, Pch. 4-John A. Morris, the principal owner and director of the Louisians Lottery Company, has published a letter in the newspapers to the effect that he intends to withdraw his proposition for the recharter of the company, and that the concern will wind up its affairs and retire from the field when its charter expires in

Forced to Give Up.

This action is the result of the degission of the United States supreme court declaring the constitutionality of the anti-lottery postal law, which shuts the company out of the mails, prohibits it from sending any circulars or tickets through the mails, and prohibits and punishes under a heavy penalty the sending of any newspapers containing notices or advertisements of lotteries.

Their Proposition.

The proposition made by the lottery, and known as the lottery amendment. was that the corporation pay the state \$1, 150,000 annually for the privilege of a recharter for twenty-five years. It passed the upper and lower branches of the legislature and would have been acted on at the April election as an amenduent to the state constitution. The opposition to the proposal was of the most determined character, but this the lottery people Nere prepared to combat.

The Last Some Gone. The recent supreme court decision. however, convinced Harris and his associates that their last hope was gone. and the announcement was decided upon. This ends forever the great lottery war, which has been waging in this state for some time past and which has brought about a split in the democratic party and the nomination of two lemogratic state tickets.

The contest has been going on nearly three years and the lottery company is popularly reported to have expended between \$3,000,000 and \$5,000,000 in the fight. The action of Mr. Morris acttles the question beyond the possibility of resurrection. In order hat the amendment may be submitted to the popular vote the lottery company must file thirty days before the election a bond for \$5,000,000. Mr. Morris will, of course, refuse to fil this now, and therefore cannot accept the offer of an extension of the charter, and indeed it is doubtful if the votes sest on the lottery amendment would

It is not certain what the effect of Mr. Morris' action will be politically. The auti-lottery democrats offered to make no nomination, to retire altogether from the field and the prolottery men have all the offices if they would adopt a resolution declaring against the lottery. Whether they will do so now that they have held their ticket is doubtful.

> FIVE MYSTERIOUS MURDERS. Series of Crimes Near Johnstown, Pa., All

Attributed to One Man-Jonnstown, Pa. Feb. 4.- Nothing ince the awful flood in the spring of 1880 has caused so much alarm as a series of mysterious murders that have been committed within a radius of 13 miles. Apparently all the five murders were done by one person, but so far detectives have been unable to discover him. On December 4 the body of a well-dressed man was found in the woods near Gallitzin, with a bullet hole in his head. The remains were those of a presperous looking man. The theory of suicide, which at first prevailed, was dispelled by the position in which the body was found. No clew could be obtained as to his identity and he was

buried. A week later the body of another man was found about 12 miles away with a hole through his head. About this time it was learned that George Myers, a prosperous citizen of Frugality, had disappeared and the body was identified as his. Myers had \$800 on his person when he left home and he had been murdered for his money.

Less than a week ago the decomposed body of another man was found in the woods near Bethel. The clothes were of good quality, but nothing could be discovered to establish his identity. The horrible butchery of the old man Kring and his wife and the cremation of their bodies a few nights ago is attributed to the same mysterious murderer, who is evidently hiding in the mountains ready to pounce upon any victim who he supposes has money.

#### TRAGEDY IN KENTUCKY.

A Covington Man Shoots and Kills the Man Who Had Reined His Daughter. CINCINNATI, Feb. 4.-A tragedy occurred Wednesday morning at the courthouse in Covington. Richard Gray, a letter carrier, shot down Steven Brogan, engineer of the Kentucky Central railroad. Brogan had ruined Gray's daughter, but agreed to marry her. The two men met at the circuit court clerk's office to get the licens. Both were armed. Brogan suddenly turned and said:

"Marriage, never. That's out of the question," and referred Gray to his attorney to arrange matters. "I am

here to pay what's right," he said. "Then I will have revenge," said Gray, pulling a 44-caliber revolver and firing. The bullet struck Brogan in the hip, and he died shortly after 6 o'clock. Gray tried to shoot himself but was prevented.

Dr. Louis Schroeder, of Ruffalo, N. Y., who knew him in Warsaw, Poland, writes here that Hauser was Padle-wiski, and that to avoid detection he traveled under different names, Posen being known as Otto Hoffman, in New York as Otto Heller, and Buffalo and Texas as Otto Hauser. Padlewiski wrote · Schroeder that he feared that he would be delivered up to the Russian government, but declared that he would never be taken alive.

Monnor, Me., Feb. 4 -- Moses Jellison, a well-to-do farmer, and his daughter Sarah, 28 years of age, were found dead in their beds Sunday after noon, having perished from want of care during a severe attack of the grip. The couple had been dead several days when found. A 10-yearold granddaughter of Mr. Jellison, a partially-demented child, was in the house all the time, and, though suffering from cold and hunger, was too much frightened to leave the house to notify the neighbors. The house of Mr. Jellison stands on a much-frequented highway, but the farmer himself was of an eccentric disposition and had few visitors.

## TOOK A BIG SWAG

Gigantic Swindling Operations of Two Brothers

WHO WERE COTTON BROKERS

They Cover the Cash and Then Clear Out for Parts Unknown-Over a Million Stolen-Their Trickery.

MEMPHIS, Tenn. Feb. 4 - The flight of Jones Bros, the cotton factors, has revealed a gigantic swindle, and it is said the absconders have got away with more than \$1,000,000. The publiration in the morning newspapers of the disappearance of all of the members of the firm of Jones Bros. & Co., as well as the bookkeeper, loosened many tongues. Confidence" Business Methods.

At one time they were the most extensive cotton buyers in the Mississippi vailey, and their purchases ranged from 50,000 to 100,000 bales a seaion. To-day they are supposed to be somewhere in Mexico preparing to enjoy a fortune secured by "confidence" methods in business. Their correspondents in Bremen and Havre are short about the amount of their ill-gotten gains. There were antil recently two kindred firms sontrolled by Walter J. and Richard J. Jones, viz: Jones Bros. & Co., and Jones Bros. & Fleet,

latter for foreign account. They did business in Memphis, New Orleans, Tupelo, Miss., and Newport, Ark. How They Worked It.

the former buying for spinners and the

Six weeks ago the Jones brothers and their partner, Sidney J. Fleet, went to New Orleans, chartered the ships and loaded them with cotton for Bremen and Havre, the shipments aggregating 15,000 bales. They drew exchange on bills of lading in the usual way and got the money for the cotton in the New Orleans banks. The drafts were drawn on the basis of the price of middling cotton, that being the grade specified in the bills of lading. The amount thus realized by the operator was scarcely less than \$100,000. The drafts were honored on the other side, and so the New Orleans banks will lose nothing. The first of the ships sailed early in Jannary and is now due at Havre. The Jones brothers returned to Memphis and boasted that they had made \$50,000 by a decline in New Orleans, and Walter exhibited a roll of bills amounting to over \$10,000 in proof of the assertion. They also claimed to be \$100,000 ahead on their transactions in futures during

the present season. Their Ill-Gotten Gains Ten days ago the firm of Jones Bros. & Fleet was dissolved, Fleet retiring and returning to New York, and the business of both houses was consolidated under the name of Jones Bros. & Co. The first hint of trouble came last Saturday. Hirsch Bros., cotton factors, attached 400 bales of cotton belonging to Jones Bros. & Co. to seeure the pay-ment of overdrai's drawn by the latter. In the meantime it began to be remarked that nobody had seen either of the Joneses about town since the preceding Thursday. Monday came and still they remained invisible. Those who are in a position to know estimate the amount that the brothers have got away with to be at least

NEW YORK, Feb. 2. - Maggie Wein muller, 20 years old, a domestic living at No. 24 East One Hundred and Twenty-sixth street was shot and instantly killed by Frank Zenner at a late hour Wednesday night. The murderer made his escupe. No cause is as yet assigned for the crime. Zenner and the young lady were lovers. They had been out together during the evening and about 11 o'clock reached the home of the girl's employer. They stood together for some time, and finally Zenner put his arm around the girl's neck. This was seen by another girl employed in the house, who took it for an endearing action. A moment later Zenner drew a revolver and placing it against the girl's head, fired. She dropped to the pavement and the mur-derer took to his heels. Up to a late hour he had not been captured. It is stated that Zenner was insanely jealous of the girl and this probably was the cause of the crime.

#### THE HOUSE RULES. Adoption of an Amendment Supported by

Ex-Speaker Reed. WASHINGTON, Feb. 4 - The house spent another day in the discussion of the rules and it is now evident that the first two months of the session will close with the rules of procedure of the Fifty-second congress still under consideration. The progress made Wednesday was very slight, but it was marked by one very significant event-the adoption of an amendment proposed by Mr. Dingley, of the republican side, and chiefly supported by ex-Speaker Reed. The amendment, too. is the most important thus far proposed to the committee's report, as it provides that all senate amendments to house bills other than appropriation bills shall be considered as soon as laid before the house by the speaker. This is considered an important step toward the practical expedition of legislation
